https://www.linkedin.com/in/mtisnadi/

I am Bachelor of Engineering Informatics who was interested statistic, programming, database, and machine learning. working as a team of data is very interesting for me. I am quick learn to something new. I am understand about logic mathematic, programing, Python, Html & Php, and SQL. Also I have basic knowledge about big data architecture like hadoop, spark and hive. I'm very passionate and have the enthusiasm to ensure that I make a success of it.

## Programming Language

Python

Java, Scala

SQL

Shell Script

Php

## PERSONALITY

Team Player

Efficiency

Communication

Creativity

Leadership

## SOFTWARE and Utility Tools

Git

Talend Open Studio

Weka

Office

Ubuntu (Distro Linux)

## WORK EXPERIENCE

- Lab Instructor for Algorithms & Programming, Basic Programming, Structured Programming, Database System, Object-Oriented Programming, Accounting Information System, Statistics, Mobile Programming, Web Programming (2013-2016)
- Internship at PT EVO Solusi Indonesia, Bali (2015)
- working at PT EVO Solusi Indonesia as Junior Programming for Desktop Programming (VB.Net) (2015-2016)
- Data Scientist at Kofera Technologi, December 2016 – August 2017
- SAP Functional Consultant,WM(Warehouse Manajement) and PP(Production Planing) at PT Paradise Perkasa, Agustus 2017 – December 2018
- Data Scientist at Emerio Indonesia, February 2019 - Now

## EDUCATION

- Computer Science Bachelor from Stmik Stikom Indonesia. GPA: 3.74 of 4.0 (September 2012 – February 2016)

## CERTIFICATES

- Python For Beginner (Datacamp)
- Intro to Python for Data Science (Datacamp)
- Intermediate Python for Data Science (Datacamp)
- Python Data Science Toolbox Part 1 & 2 (Datacamp)
- Importing Data in Pythin Part 1 & 2 (Datacamp)
- Pandas Foundations (Datacamp)
- Cleaning Data in Python (Datacamp)
- Intoduction to Data Visualization (Datacamp)
- Intoduction to Database on Python (Datacamp)
- Manipulating Dataframe on Pandas (Datacamp)
- Intro to SQL for Data Science (Datacamp)
- Python Programming Track (Datacamp)
- Data Analyst With Python Track (Datacamp)
- Deep Learning in Python (Datacamp)
- Machine Learning with the Experts: School Budgets Course (Datacamp)
- Data Scientist with Python Track (Datacamp)
- Introduction to Programming with Python (Microsoft Virtual Academy)
- SQL Database Fundamentals (Microsoft Virtual Academy)
- SAP Warehouse Management (Udemy)

---

## Project

**Build a program for implement Decision Support System Method 2014**

The program made with VB.NET and database SQL Server and using Visual Studio and SQL Server manajement studio as tools. There are several methods Decision Support System that have been made like AHP (Analytic Hierarchy Process), SAW(Simple Additive Weighting), TOPSIS (Technique for Order by Similarity to Ideal Solution), Profile Matching.

**Make a program for reservation, manajemen and accounting system for hotel (2015)**

This is a team project. The program made with VB.Net and SQL server for database. This program using by Bakung group hotel in bali.

**Geographic Information System (GIS) Application (2015)**

The purpose of this application is to detect the location of the nearest hospital and health center for blood donation. The algorithm for get distance is dijkstra algorithm. This Program made for android and using Eclipse as tools.

**Build a Library application (2016)**

This programs to manage libraries at school, using VB.Net and Sql Server as database.

**KPI Machine Learning on Online Advertising (2017)**

This is project on Kofera Tech. The model make using python. The purpose to optimize model Machine Learning.

**Generator Metrik Keyword for new keyword on Adwords(2017)**

The purpose this project to generate a dummy data parammter for new user are using kofera on adword advertsing. The new keyword are check similarity using w2v method, and using cluster for generate for a most similarty data.

**Implement SAP Module WM on PT Mitra Perkasa Sukses (2017)**
**Implement SAP Module PP on PT CT Advance Technologi (2017)**
**Implement SAP Module WM on PT Dihen Bersama (2018)**
**Implement SAP Module WM on PT Itech Mandiri (2018)**

**Clasification Enggine for CEC Bank BTPN (2019)**

The pupose this project to predict categorize of narrative text. This program written in python.

---

# CURRICULUM VITAE

## INFORMASI PRIBADI

| | |
|---|---|
| Nama | : Muhammad Tohri Isnadi |
| Tanggal Lahir | : 05 September 1993 |
| Tempat Lahir | : Talun, Lombok Timur, |
| NTB Jenis Kelasmin | : Laki-laki |
| Agama | : Islam |
| Kewarganegaraan | : Indonesia |
| Alamat | : Jalan Lingkar Wisata Otak kokok, Talun Desa Pringgajurang Utara Kecamatan Montong Gading Kabupaten Lombok Timur, NTB. |
| No. Handphone | : 08111505099 |
| E-mail | : tohri.isnadi@gmail.com |
| Status | : Belum Menikah |
| Tinggi / Berat Badan | : 161cm / 60 kg |
| Golongan Darah | : - |

## PENDIDIKAN

- 2000 – 2006 : MI NW NO 1 TALAUN
- 2006 – 2009 : MTs NW TALUN
- 2009 – 2012 : MAN Selong
- 2012 – 2016 : S1 Teknik Informatika Konsentrasi Manajemen Teknik Informatika, STMIK STIKOM INDONESIA

## KEMAMPUAN

- Bahasa pemrograman (Python, Php, Java, Visual Basic)
- ETL Tools (Talen Open Studio, Apache Airflow)
- Web Framework (Laravel, Django )
- Database (SQL Server, MySQL,Postgres SQL,MongoDB)
- Analisis Data (SPSS, Python,Weka)
- Ms Office
- Git

## PENGALAMAN KERJA

- 2013/2014, Asisten Laboratorium Mata Kuliah Algorithms & Programing, Basic Programing, Structured Programming I. Jurusan Teknik Informatika STMIK STIKOM Indonesia
- 2014/2015, Asisten Laboratorium Mata Kuliah Object-Oriented Programing, Accounting Information System, Statistics, Computer Network, Structured Programming II Jurusan Teknik Informatika STMIK STIKOM Indonesia
- 2015/2016, Asisten Laboratorim Mata Kuliah, Algorithms & Programing, Basic Programing, Structured Programming II, Database System, Statistics, Basic Digital Image
- 2015, Magang di PT EVO Solusi Indonesia
- 2015, Kerja sebagai Junior Programing di PT EVO Solusi Indonesia untuk Aplikasi Berbasis Desktop, berkontribusi dalam Pembuatan Aplikasi Manajemen SPA di PT Spassion Nusa Dua, dan E-POS (KASIR) Ayu Nadi Store
- 2015, berkontribusi dalam Pembuatan Aplikasi Sistem Informasi Keuangan dan Absensi Karyawan STMIK STIKOM Indonesia
- 2015 – sekarang, Publisher Blog
- Desember 2016 – Agustus 2017, Data Scientist Kofera Technology
- Agustus 2017 – Desember 2018 , SAP (modul Production Planing dan Warehouse Manajemen) Konsultan di PT Paradise Perkasa Group
- Februari 2019 – Sekarang, Data Scientist di Emerio Indonesia

## ORGANISASI DAN KEPANITIAAN

- 2007-2009, Anggota OSIS MTs NW Talun
- 2008-2009, Pratama (Ketua) Pramuka Mts NW Talun
- 2010-2011, Anggota Osis MAN Selong
- 2009-2012, Anggota Pramuka MAN Selong
- 2010-2011, Pradana (Ketua) Pramuka MAN Selong
- 2009-2012, Anggota ICT (Information Comunication and technology ) Man Selong
- 2012-2016, Anggota UKM KSR PMI unit STIMIK Stikom Indonesia
- 2012-2016, Anggota UKM Software STIKI Indonesia
- 2012-2016, Anggota IMUKI (Ikatan Mahasiswa Muslim) STIKI Indonesia
- 2014, Sie Acara Diklat KSR KSR PMI unit STIMIK Stikom Indonesia

Jakarta, 01 September 2019
